

**Potassium N-ethyl-N-
[(heptadecafluorooctyl)sulphonyl]glycinate**

Cat.No. W-109843

Not for food or drug use, for laboratory use only.

© BIOSYNTH AG
Date: February 27, 2019

Formula: C₁₂H₇F₁₇KNO₄S

Molec. weight: 623.32 g/mol

CAS number: [2991-51-7]

Handling: Store at room temperature

Assay (NMR): min. 95%

Chemical Role(s): Brønsted base,
environmental contaminant

Chemical Entity: glycine derivative,
organofluorine compound, potassium salt,
sulfonamide

Application: building block, reagent
